

Welcome ...

to another year of Odessa College student activities and Wrangler Booster Club support. For over 40 years, the Odessa College Wrangler Booster Club has been instrumental in the success and winning tradition that has become synonymous with Odessa College athletics. Quality education and strong administrative and community support have propelled Odessa College into national prominence in two year college circles.

To achieve and maintain a highly competitive athletic program in all sports, your continued support in terms of time, spirit and financial contribution is needed.

The Wrangler Booster Club began in the spring of 1966 to provide educational opportunities for young people with athletic and academic abilities. The purpose of the club is to support the various programs at Odessa College, to promote the institution throughout the region and to provide a benefit to the community through quality entertainment. As with any service organization, it is Odessa College's desire that membership will promote individual growth and increase community awareness, as well as provide excellent marketing opportunities for local businesses.

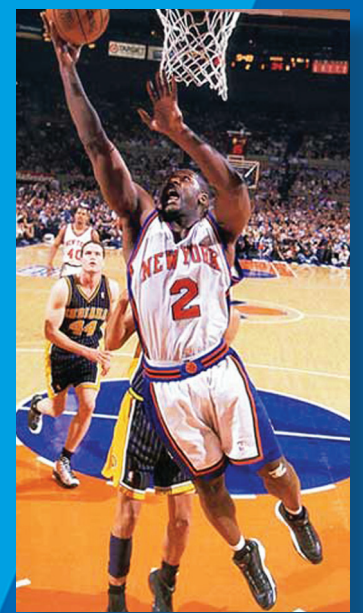

Odessa College recognizes that student athletes should be given the opportunity to earn a college degree while simultaneously developing their athletic abilities in an environment which promotes academic enrichment, sportsmanship, leadership and institutional loyalty. Support from the

Wrangler Booster Club enables the athletic program to foster pride and enthusiasm among students, faculty and community members. The funds from the Wrangler Booster Club will be utilized to enhance scholarship opportunities, improve facilities, entertain club members at events, supplement recruiting budgets, hold booster club events, and provide general program enrichment.

Three levels of club membership are designed to reach virtually everyone within the community. There is a level for Odessa College faculty/staff, a category for individual/couple membership and a range for corporate membership. Various levels of membership are detailed below and questions may be directed to the Odessa College Athletic Department at 432.335.6574.

Corporate marketing opportunities exist which allow a business to promote and market by either direct contribution or in a trade out situation contracted between the business and the athletic department. This presents a great opportunity for the business and also allows the college to promote our athletic program at the highest level. Your support will be greatly appreciated and you will have the satisfaction of knowing that you are making a significant contribution to the tradition of excellence found in Wrangler athletics and helping a talented student athlete obtain a college education.

Contributions to the Wrangler Booster Club may be tax deductible.

The Odessa College Wranglers athletics program has earned a national reputation for its outstanding programs for student athletes and is among the nation's elite with 46 national titles! Odessa College has greatly increased the number of opportunities for student athletes to be a part of this rich tradition during the past decade. Women's fast-pitch softball began in 2000-2001. The OC Blues (Dance) began in 2007-2008. Cross country for both men and women also began in 2007-2008. The number one priority of the Odessa College athletic department is to create an environment that promotes student success. The athletic department is excited to assist the approximately 200 student athletes who are working toward their dreams at Odessa College.
